Fast track your children's swimming skills, and achieve your swimming goals in half the time, at a reduced cost. Never has it been more important to teach our children to swim and keep them safer can around water. Whilst our Learn to Swim program is absolutely effective when delivered once a week to our students, like any skill, repetition is key, and there are great benefits to more regular practice!

JUST KEEP SWIMMING!

As we head into April, I write with a heavy heart, following one of the worst summers on record, and another incident (in Queensland) involving 2 toddlers in March. We are a few months away from the next Royal Life Saving National Drowning report being released, but by the end of February 105 deaths had been recorded in media-related data alone and the final number is still pending Coronial confirmations of drowning deaths. Amy Peden, Royal Life Saving Australia's national manager of research and policy, said that this year's figures could jump even higher and make the 2018-19 summer the deadliest on record.

All of these deaths were preventable, so we must focus as a community on education around water safety and swimming skills. Please enrol your children in swimming lessons from 6 months of age, and continue lessons until the child is competent in the water. The risks associated with drowning do not go away during the cooler months, so swimming lessons must be an all year round activity. By swimming throughout the cooler months children remain confident in the water, and avoid regression of swimming skills. If you are an adult who is unable to swim, why not learn this winter and be ready for summer fun in the water? We offer group lessons for adults, which are more affordable than private lessons, and have proven very popular in recent months. Take advantage of the intensive swim programs being offered in the school holidays, and take advantage of multiple lesson discounts during the cooler weather to really accelerate your child's swimming skills – we are offering second and subsequent weekly lessons for just \$10 to make extra lessons, and fast tracking of swimming skills, more affordable. Bottom line - just keep swimming, all year round.
